COMMANDER ROBERT W. NAGLE, AP  
YORK SAIL & POWER SQUADRON

## COMMANDER'S MESSAGE

Dear Fellow York Sail and Power Squadron member,

I am honored to be the newest Squadron Commander. I was pleased to have a good turnout for the Change of Watch at the Roadhouse Restaurant in East York. I enjoyed the good food and company of our fellow members and friends. Also in our presence were the District 5 Commander Ralph Bernard and his wife Nance. D\C Ralph Bernard presented a plaque for Ed Furst for achieving 161 VSC inspections. Ed could not attend the Change of Watch but will be presented the plaque at the June 4<sup>th</sup> Picnic/Meeting. I would like to thank Past Commander Ryan Moore for his time and effort for the past successful year and for the help he has provided me for this upcoming year.

The following year will have many challenges to overcome with the economy the way it has become. Money is tight and boating is a luxury that fewer people will be partaking in. For the people that are, I hope that the United States Power Squadron and locally the York Sail and Power Squadron will lead the way. Your support enables USPS to continue its educational and recreational boating efforts

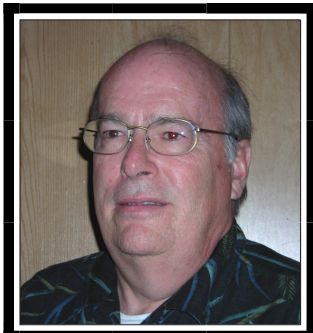

I have been cleaning up my boat, performing the necessary repairs, making sure it will be safe. My 1988 Bayliner Capri Cutty can usually be seen on the Susquehanna River at Long Level (Lake Clark) on some of my free weekends. The boat is a sport about, that we like to water ski, tube and island visit. Occasionally I also trailer it to Lake Aldred, Conawingo Pond and I hope to spend about a week at Lake Raystown (camping and boating) I would like to invite you to come to the river (usually Long Level lower free boat launch area) to enjoy a picnic and some time on my boat. If you have an e-mail address I will let you know when and where to meet, due to weather and my kids activities it is a last minute activity.

*Commander's Message—(Continued on page 3)*

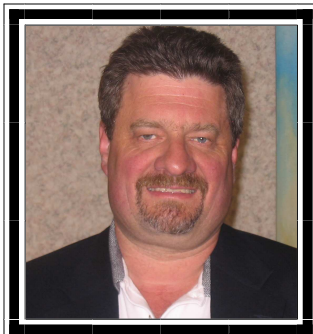

YORK SAIL & POWER  
SQUADRON

April 30, 2009

To all,

Please read the attached letter from Senator Richard Burr (R-NC). Senator Burr is a great friend of the recreational boating industry. Because the boating industry provides thousands of jobs in North Carolina he takes very seriously comments and recommendations from United States Power Squadrons® members.

The Federal Reserve has included Marine floor plan loans in the Term Asset-Backed Securities Loan Facility (TALF) program. This inclusion should have a positive impact for marine dealers. Very briefly: non-auto floor plan loans will include revolving lines of credit to finance dealer inventories. There are of course some terms and conditions. If you're interested go to [www.newyorkfed.org/markets/talf\\_faq.html](http://www.newyorkfed.org/markets/talf_faq.html) to see eligible collateral requirements.

This has great potential for us as an organization to establish and foster relationships with marine dealers in our local areas. One of the "choke points" in the downturn of new boat sales has been the lack of financing for boat dealers to purchase new inventory from manufacturers. Simply by stopping by and sharing this information can be a door opener for a venue to offer our boating classes and seminars that will increase the dealerships floor traffic. It will not only increase our visibility as the number one recreational boating authority expert, it would also go a long way in solving a major headache for the dealer.

Sincerely,

Tom Kemp  
HQ Marketing Manager

April 20, 2009

Mr. Tom Kemp  
Manager of Marketing & Development Services  
United States Power Squadrons  
PO Box 30423  
Raleigh, North Carolina 27622

Dear Mr. Kemp:

Thank you for contacting me about the need to include marine floorplan loans in the Term Asset-Backed Securities Loan Facility (TALF) program. I appreciate hearing from you on this important issue.

The marine industry is an important part of the U.S. economy, and it is especially important to a coastal state like North Carolina. I understand that the recreational marine industry, like other segments of the economy, has been hit especially hard by the credit crunch. With the lack of credit available for marine floorplan financing, both manufacturing production and boat sales are down significantly.

To increase the flow of credit in the recreational marine industry, I am pleased that on March 19, 2009, the Federal Reserve announced that marine floorplan loans will be included as an eligible asset class under TALF. I am hopeful that this inclusion will have a positive business impact for marine dealers and manufacturers.

Again, thank you for contacting me. Should you have any additional questions or comments, please do not hesitate to let me know or visit my website at <http://burr.senate.gov>.

Sincerely,

Richard Burr  
United States Senator
